COVID-19 Vaccine Recipients Develop Rare Blood Disorder

February 11, 2021

Federal authorities are investigating reports that some COVID-19 vaccine recipients have developed the rare blood disorder thrombocytopenia, with at least several cases resulting in death.

A Food and Drug Administration spokesperson told The Epoch Times in an email that the agency is investigating and assessing the reported cases.

“At this time, we have not found a causal relationship,” the spokesperson said. “We will update the public as we learn more about these events.”

The blood disorder was listed by the FDA last year as a possible adverse event outcome from getting a COVID-19 vaccine, alongside other serious adverse events like Guillain-Barré syndrome and death.

Several dozen case reports of post-vaccination thrombocytopenia have been submitted to the Vaccine Adverse Event Reporting System (VAERS), a passive reporting system managed by the FDA and the Centers for Disease Control and Prevention. Approximately 44.7 million doses of COVID-19 vaccines have been administered in the United States as of Feb. 10.

They will of course eventually require "proof" (injected microchip) that you received the "vaccine" to work, shop, bank, travel, receive medical or dental care, go to school (Fauci wants to inject all kids he says). Mark my words, it is coming...Mark of the Beast.

The Star Trek vaccine--Kirk-"Bones! We need a vaccine, quick!"--McCoy-"I'm a doctor not a magician, Jim!".

Vaccines on demand are sci-fi crap. No one in my immediate family's going near this thing. And I DO blame Trump too for pushing this shit when he knows Hydroxy's the answer and took it himself. "I got it to you in record time". Thanks. Keep it.

Socialist mandates are *Herd Stupidity*.

These mRNA Vaccines have not worked or been safe since animal test subjects die overwhelmingly (and their Genetic expression is far less than Humans).

Yet another reason why we must do all we can to keep the Biden regime from mandating this experimental vaccine. Please sign the petition to stop medical discrimination:

See Janus • 3 hours ago

People are dying for bizarre reasons after taking the experimental vaccine, and these morons just say "we'll get back to you when we know more". No, this is murder, institutionalized murder.

People are retarded anytime the government says you need something you DON'T need it! The same goes for the other way around. If the government says you don't NEED something, believe you need it! 3 to 5 years is going to be a lot of time if you are part of the depopulation plan, so you need your local venue so you can get the vaccine!

Lawrence • 3 hours ago

Baseball legend Henry Aaron, took the vaccine, at 83, in perfect health, as a crusader for Black folk, to take the vaccine. He was dead, in bed, in 12 days. They said from natural causes...Anyone believe that BS?

They have a designation in the insurance codes, ICD -10, for Covid. They have one for EVERYTHING in your life, for injury during surgery, to tripping in a driveway. They pile them up when they send them in to the insurance co, which is part of the loss of privacy that occurred when the govt came in with the ACA - one thing the average person does not understand.

There are hundreds of thousands of these codes. IMHO, they need to have one for Covid lockdown contributing to your death. I have known SO MANY PEOPLE who have DIED from LOCKDOWN CONTRIBUTION factors. And now Covid vaccine.

In one case, a 56-year-old male in Florida was injected with **Pfizer's** vaccine and rushed to the hospital, several days after noticing "small blood tinged spots."

Seems to be more issues with Pfizer than Moderna

**Fran** • 4 hours ago

I had the first vaccine, not getting the second! More and more I am convinced that the SARS COV2 was bio-engineered and I am also suspicious that this virus was created for population control, esp with the elderly and the vaccine created to "thin out" the general public. Why HCQ/zinc and Ivermectin tabooed by the medical arena? Why is Bill Gates so dang excited about vaccines when he's not a s there is Fauci...that POS and NIH Sars Cov the first one, etc. Yeah questions. I have watched tons c from doctors pro vaccine and an still too many unknowns with the vaccines in the long run. I am no should be taken! Esp. if one is ol doctor that prescribes Ivermectin

Covid had a 99% survival rate for those without co-morbid problems...so that is one reason to wait to see what the survival rate is for the vaccine!

7 ^ | v • Reply • Share ›

**Mark** → Roberta Ralston Dimond-Stonesi • 3 hours ago

99.99% actually, if your under 60, sorry to be nit picky.

3 ^ | v • Reply • Share ›

**Ashley Shea** → Mark • an hour ago

99.99% Survival rate for the vaccine? CNN hand out those numbers? As the first of its kind used on humans, and w/o R&D, you can rest assured that the hundred million deaths that they estimated, will definitely come to pass.
